Introducing The Shift

# Moving the Building Ecosystem

*Renovate Smarter Webinar*

*26/06/2026*

## Who we are.

We are Belgium's first, largest and most diverse **sustainability community**. Formed by a fusion of the worlds of business, civil society and science 10 years ago.

This is where those who want to accelerate **the sustainable transition** gather.

**More than 500 businesses, social organisations and policymakers realise the sustainable transition to a net-zero, nature-positive, inclusive and fair economy.**

## A multistakeholder network

**Some  
key  
figures.**

**500+**  
Members of our network

**26**  
Industry branches

**15**  
Press clippings per year

**587**

Programme Introduction

# Moving the Building Ecosystem

The Climate Shift

In partnership with:

**B** King Baudouin  
Foundation  
Together for a better society

## Knowledge partners

# What?

- This Community of Practice brings together organisations eager to move beyond isolated actions and **consider the entire value chain** in their decisions, from design and materials to procurement and use.
- **Solution-based approach with practical tools**
- Six **interactive** sessions starting Q3 2026
  - Expert guidance
  - Testimonials sharing best practices
  - Tailor-made
- Outcome: knowledge, know-how & tools to set up a **science-based climate transition plan**

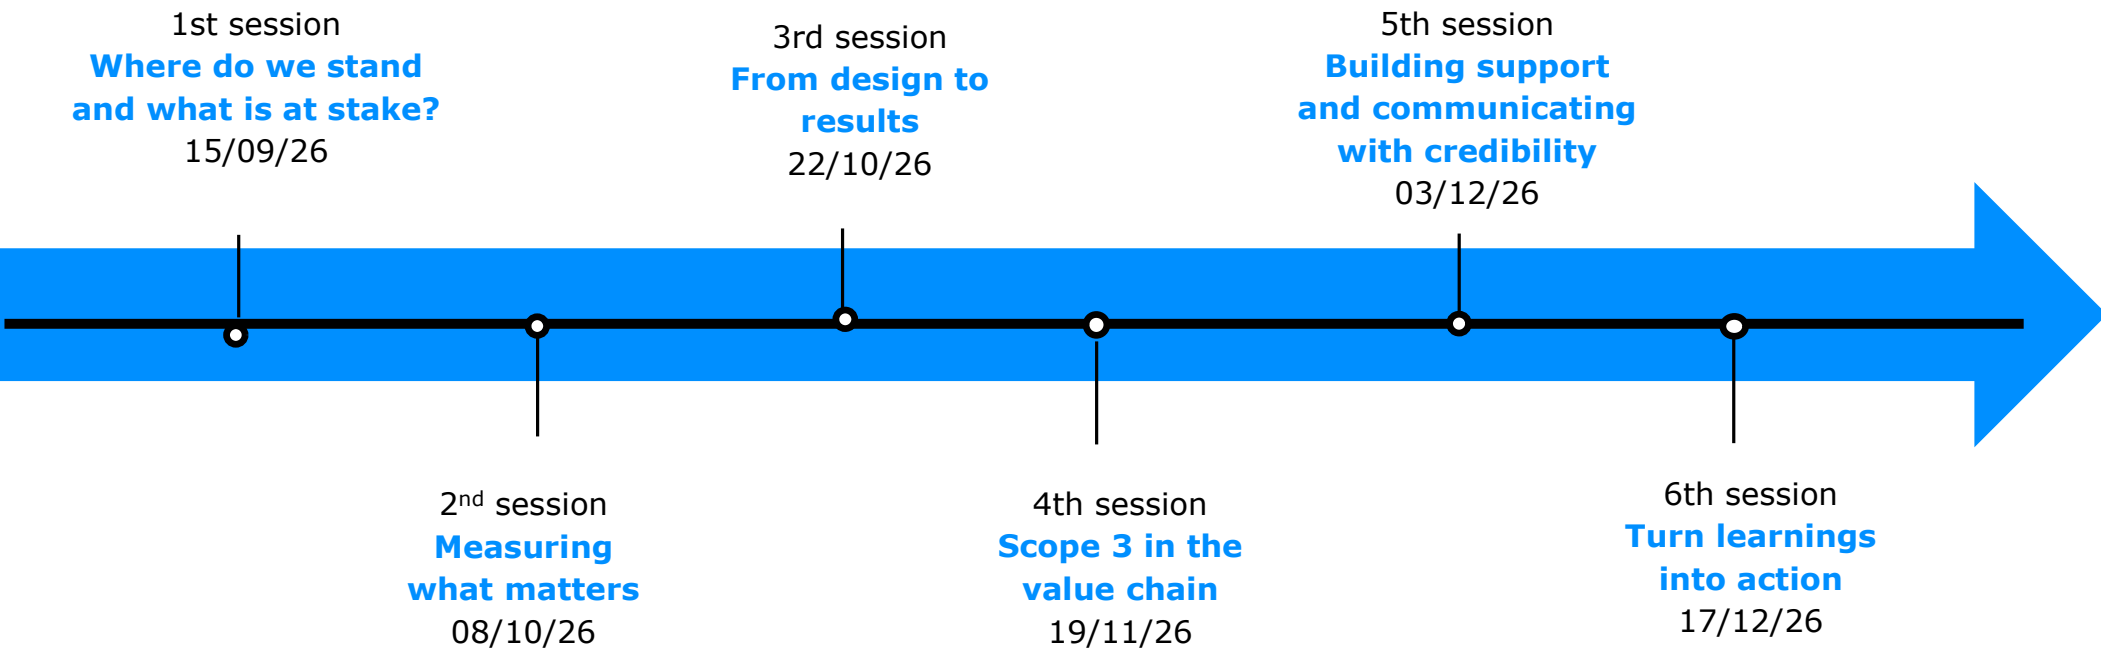

the  
Shift

# For whom?

- Are you **active in the construction value chain** as a developer, architect, contractor, builder or materials supplier, etc.?
- Are you looking to better **understand where environmental impacts arise**, align your teams and work with partners to reduce them?
- Are you **open to collaboration**, learn from peers, and translate insights into action within your own organisation?
- **Commitment**
  - Clear mandate
  - Dedicated
  - We warmly welcome colleagues for whom this topic is relevant

## Roadmap Moving the Building Ecosystem

## Sessions 1–3: Understanding the challenge and identifying opportunities

- **Understand** the climate risks, regulatory developments and market signals reshaping the construction sector.
- **Explore** what is at stake for your organisation from a financial, operational and strategic perspective.
- **Learn** how to connect emissions data to business decisions and financial performance.
- **Identify** practical solutions and **overcome** common barriers to implementing low-carbon projects.
- **Turn** climate ambition into real progress

## Sessions 4–6: From collaboration to action

- **Explore** how to engage suppliers and partners on Scope 3 emissions, certification, circularity and reuse.
- **Learn** how to ask the right questions and strengthen collaboration across the value chain.
- **Build** internal support and **engage** key stakeholders around decarbonisation.
- **Communicate** progress externally with credibility and **avoid** greenwashing.
- **Develop** a roadmap with clear priorities and next steps.

the  
Shift

The building sector  
is changing.  
Are we moving together?

## In Practice

### Time investment

- 6 half days for 1 to 2 persons

### Commitment fee

- 2100 € excl. VAT
- 1500 € excl. VAT for The Shift members

### Location

- At participants' location

### Language

- English as main language
- You are free to express yourself in French or Dutch, we'll manage the translation if need be

**" By joining a Community of Practice, you step out of your own bubble and discover new perspectives on how to approach supplier engagement"**

*Alexander Mastrovito,  
Manager Transversal Projects at bnode*
